

RIVERS AND HARBORS

Complaints Made by the Disbursing Officers.

LABORERS CLAMOR FOR MONEY.

Officials Reluctant to Discuss the Question, but Say That the Responsibility For Present State of Affairs Is Not Theirs—Payments on Account of River and Harbor Work at Present Are Unusually Heavy.

WASHINGTON, Aug. 20.—The war department is in almost daily receipt of complaints from the disbursing officers in the various river and harbor districts of the country concerning the delay in forwarding money from the treasury department in response to their requisitions. These complaints represent that in many cases contractors and laborers are clamorous for money, which in some cases has been due for three or four months.

The war department officials are reluctant to discuss the question, but admit that complaints are made and that instead of being confined to any one or two districts they are quite general. There has been especial criticism from the Detroit and St. Louis districts in each of which the government is in arrears to the extent of about \$150,000.

The war department officials say that the responsibility for this state of affairs is not theirs. It has been the practice heretofore for the engineer officers in charge of the river and harbor work in the various districts to send in their requisitions at or about the beginning of each month for the money supposed to be necessary to meet the expenses of the month. The chief engineer forwards them promptly giving full credence to the estimates of the subordinate officers in the field, but the treasury department, it is said, now shows a disposition to withhold settlement longer than was formerly the case.

War department officials complain that this has had the effect of keeping the government in arrears to employees, of causing criticism of their department and of hardship to persons dependent upon this work. In the case of the work in the Detroit district, for instance, it is reported that General Poe, in charge of the work there, was compelled to send two telegrams urging attention to his requisition before he could get the money upon it. Rumor placed the amount of requisitions withheld at from \$5,000,000 to \$6,000,000, but the chief of the warrant division of the treasury when seen said this report was an exaggeration and that his books show that only little over \$800,000 in requisitions stand unpaid.

The requisitions for river and harbor work come from the war department, and when endorsed as immediately necessary, are, according to Mr. McLennan, forthwith paid over to the engineer in charge. It was the custom, it was explained, at the treasury department, until the administration of Secretary Foster, to issue warrants for requisitions of officers in charge of river and harbor work immediately on their receipt. But under Secretary Foster's direction a change was ordered by which the amounts standing to the credit of disbursing officers were reduced from over \$40,000,000 to \$20,000,000. This change was the result of an investigation which showed the requisitions were often made by disbursing officers for large sums when their balances were large and there was, it is stated, absolutely no immediate use for the money for which they called. The result of the change in methods, treasury officials say, has been to keep in the available balances of the treasury many millions which under the former system should have been tied up as credit balances to the accounts of disbursing officers.

The books of the warrant division show at present that payments on account of river and harbor work are unusually heavy. Over \$1,700,000 was paid to disbursing officers last month and over \$2,600,000 for the 19 days of the present month, or at the rate of \$30,000,000 a year. The appropriations for the fiscal year which closed July 1, 1895, were \$20,043,000, and for the present year ending July 1, 1896, they aggregate \$11,452,000.

BIMETALLIC LEAGUE.

After an Address by the Chairman They Proceed to Do Business.

SAN FRANCISCO, Aug. 20.—The American Bimetallic league held its opening session yesterday afternoon. The assemblage is called the non-partisan silver convention: its objects are to sing the praises of the white metal and to take such concerted measures as shall produce united and effective interest in its behalf. Of the 800 members of the convention over 600 are present. The business of organizing occupied the attention of the convention.

After an opening address by Chairman G. W. Baker, in which he welcomed the workingmen present, but lamented the absence of bankers and bondholders, the usual committees were appointed. C. C. Powning, a Reno editor, was introduced as the old warhorse of silver and made an address in which he said that Nevada would never support an anti-silver candidate for president.

MARION, Ind., Aug. 20.—This city promises within the next five days to give out the most sensational matter yet developed in the Holmes murder cases. As matters are now shaping, several persons will be under suspicion of connection therewith, for it is asserted that this city was the central point of operations during 1894.

DEEP WATERWAYS ASSOCIATION.

Some of the Subjects to Be Discussed at the Cleveland Convention.

CLEVELAND, Aug. 20.—About 20,000 invitations have been sent throughout the United States and Canada asking for public bodies to send delegates to the first annual convention of the International Deep Waterways association in this city Sept. 24, 25 and 26. The president's annual address will discuss the following subjects:

Progress of the deep waterways movements, economics of deep water transportation, ultimate effect of deep water from the lakes to the sea, and many other subjects of the deep water movement.

Delegates to this convention, when chosen, should send their names and addresses to the executive secretary, F. A. Flower, West Superior, Wis. The international president of the association is O. A. Howland of Toronto, and there are state and provincial vice presidents from many of the states and provinces of the United States and Canada. The officers of the association will have their headquarters at the Hotel Hollenden during the coming convention.

Formal invitations to attend the convention have been sent to all senators, members of congress and leading thinkers, economists and engineers all over the country. Members of the association will receive free the reports and publications, copies of all speeches and papers and public documents issued by the association. Membership may be obtained by addressing Captain J. S. Dunham, at 210 South Water street, Chicago. The fee is \$2.

SUPERIOR'S GIANT COPPER.

He Is a Scandinavian, Who Is Seven Feet Four Inches Tall.

SUPERIOR, Wis., Aug. 20.—The first appointment by Mayor Howe, of this city, is likely to become famous. It is that of Gust. Anderson, a Scandinavian giant, who now wears a policeman's star and patrols the city on regular duty.

Anderson is of gigantic stature and a veritable Hercules. He came to Superior a few months ago, having worked in Omaha packing houses and also at railroad work. On arriving in this city he secured a job on a coal dock, where he was the wonder of his fellows. A few days ago Anderson went to Duluth with a crowd of strikers to induce men on that side of the bay to stop work. He was arrested, and gained considerable notoriety.

Officer Anderson is a native of Norway, where his parents reside. At the age of 12 years he came to this country, and was able to do a man's work with perfect ease. He is 7 feet 4 inches in height, and weighs 325 pounds. Neither his parents nor relatives are of more than ordinary size. Anderson is now in his 23d year. His chest measures 52 inches, and he will wear a 7-5-8 helmet, which has been telegraphed for. His hand measures eight inches across.

NUGGETS OF GOLD

Dug Up on a Farm in Michigan by Two Workmen.

DIAMONDALE, Mich., Aug. 20.—While at work on Lewis Potter's farm Frank Lonsbury and Augustus Fox dug up a box filled with gold nuggets and a little sack of pure gold flakes. The two men kept the find a secret, carrying their treasure to the Ingham County Savings bank, at Lansing.

Forty-five years ago an Englishman named Carr moved into Michigan. He was poisoned. Before his death he hid all his gold in this vicinity. He confided his secret to neighbors but they never located the treasure. Mr. Potter thinks there is more gold on his farm besides that discovered by Lonsbury and Fox. Lansing bank officials say the amount deposited exceeds \$20,000.

SANDWICH ISLANDER.

Queer Creature Hidden Away in a Bunch of Bananas.

MUNCIE, Ind., Aug. 20.—While a clerk at Daniel and Hastings' grocery, 1511 South Walnut street, was pulling bananas from a stalk yesterday, he discovered a queer little creature hiding in the bunch of bananas.

The visitor was killed and it was discovered that it was one of the notorious Sandwich Island rodents, which infest and destroy much of the banana crop of those islands. It had quite a journey before its death. The rodent resembles a cross between a brown squirrel and a rat. It has the mouth of a squirrel and the feet and tail of a rat. Its length is 10 inches, and its tail five inches long.

He Died Without Regrets.

ABINGDON, Ill., Aug. 20.—A double tragedy occurred at Prairie City yesterday afternoon. William Blanchard, a prominent farmer, who separated from his wife about a year ago, tried to make up with her, but she refused. He clutched her by the throat and shot her twice, killing her instantly. He then turned the revolver and shot himself. He lived about two hours and did not regret that he had done the deed. A little girl is left.

Holmes' Castle Designer.

ST. PAUL, Aug. 20.—An Eau Claire, Wis., special to The Pioneer Press says: Charles Berger, who drew the plans for Holmes' castle and superintended its construction in 1887, lives here. He was partner in the firm of Gellauner & Company, architects. Berger says he knows nothing about the secret part of the castle and thinks it must have been contrived later. He says Holmes swindled him out of \$340 due for services.

SITUATION IS SERIOUS

Investigation Into Missionaries Massacres Refused.

MATTER REFERRED TO VICEROY.

American and British Consuls Not Even Allowed to Attend the Trial of the Criminals Before the Local Authorities—The Chinese Dislike Interference by Outsiders and Look Suspiciously Upon Foreigners.

SHANGHAI, Aug. 20.—A dispatch to The Mercury from Foo-Chow says it is reported on good authority there that the Chinese government has refused to allow the American and British consuls, J. C. Hixson and R. T. Mansfield, who accompanied the commission appointed to investigate the recent massacres of missionaries and their families at Ku-Cheng, to make any investigation into the circumstance of the massacre.

NO INFORMATION

Received by Chinese Officials Regarding Refusal of Investigation.

WASHINGTON, Aug. 20.—The officials of the Chinese legation have no information throwing any light on the reported refusal of the home government to permit the members of the mixed British and American commission to investigate the Ku-Cheng massacre. In fact the legation has not yet been apprised officially of the appointment of the commission. The only explanation given as reason for the reported refusal is that the action reported to have been taken was by the Chinese local officials who possibly have not been informed by the central government of the appointment of the commission to make the investigation, the local officials acting merely on their own inclination in the premises.

If the reported action of the Chinese be correct it is apparently not a matter of very great surprise to the officials of the state department here. They attribute any refusal of the local authorities to permit the commission to investigate the troubles to the well known desires of the Chinese to conduct such inquiries by their own people, the dislike of having any interference by outsiders and to the general suspiciousness with which they look upon foreigners.

The present troubles, the officials say, are not dissimilar in any material respect from others that have occurred from time to time in the diplomatic history of the government's interests, and a glance at the British and American blue books will substantiate this statement.

A somewhat similar case to the present, it is said, is found in that of Raymond Margery, a British officer in the consular service, who was killed in the province of Yunan about 15 or 16 years ago. In this instance the British government demanded reparation and the appointment of a commission to make an investigation resulted. At first there was decided objection by the local officials to having foreigners take part in the inquiry, but the matter was finally adjusted in a way apparently satisfactory to the British. It is not feared here in official circles but that any complications that may have arisen in the present case will be adjusted and ample reparation be made for the lives that were lost in the Ku-Cheng massacre.

UNDER THE EIGHT-HOUR LAW.

Claims For Large Amounts For Back Pay and Overtime.

JEFFERSONVILLE, Ind., Aug. 20.—A number of suits have been filed in the United States court at New Albany within the last few weeks. Every one of them is by an ex-employee of the government, and all are for large sums, ranging from \$2,500 to \$6,000 for back pay and overtime, while the plaintiffs were in the service of the government. Together they will aggregate not less than \$40,000. The plaintiffs are Henry Timmonds, engineer; Matt Sauer, watchman; and William Struck, watchman, of this city; John Coburn, engineer, of New Albany, and J. F. Black, locktender; Andrew Conan, administrator of the estate of James Black; James Berry, Stephen Pitts and Annie Mackey, administrator of the estate of Lawrence M. Mackey of Louisville.

The overtime ranges over a period of 20 years, and the suits are brought under the eight-hour law, passed June, 1868, and under the act of congress of March, 1887, regulating the bringing of suits against the government.

Crude Oil For Fuel.

OMAHA, Aug. 20.—Commencing in a few days the Norfolk sugar factory of the Oxards will use crude oil for fuel instead of coal. This will be a practice test of the merits of oil as a substitute for coal, and if profitable results are obtained, will turn the attention of Omaha capitalists to the resources of the great oil fields of Wyoming. A pipe line from central Wyoming to Omaha is talked of as calculated to revolutionize the manufacturing industries of the west.

Poor Exhibition.

TORONTO, Aug. 20.—The race between Gaudaur and Durman Monday afternoon was the poorest kind of an exhibition. It was raced in such shallow water that the boats almost scraped along the bottom and it was run three times past the grandstand of the ferry companies to let the occupants see it. Gaudaur could do anything he pleased with Durman, and won by one length simply because he did not want to win by 50.

WAGE SCALES.

A Final Settlement in Different Lines May Be Adjusted This Week.

PITTSBURG, Aug. 20.—The final settlement of the wage scales in the different lines of the glass trade that have not yet been adjusted are to be considered at conferences arranged for this week in Pittsburgh. Thousands of workers will be affected by these settlements, if they are made, and a prospect for a start of all factories now idle are unusually bright and fires for the coming year will likely be lighted in the different union factories of the country on Sept. 1.

The prescription, stopper grinding, pressed ware, iron mould and engraving scale are to be considered in conference this week. The prescription branch, which affects over 1,000 men, and stopper grinding for the eastern district, in which a like number of men are interested, will come up in conference between committees of workers and manufacturers at the Monongahela House today. The wage scale of the Green Bottle league, composed of about 4,000 skilled workers in the country, will be considered at a conference to be held here this week.

The wage committee of the window-glass manufacturers and employees will confer again Friday and make another effort to arrange a scale for the next fire that will affect at least 10,000 men. In all these three branches of the glass trade fully 50,000 workers will be interested.

ANOTHER STRIKE

And Rumors of Still More If Grievances Are Not Amicably Adjusted.

NEW YORK, Aug. 20.—Two thousand five hundred union vestmakers, including 700 women and girls, are on a strike for a renewal of their agreement. The strikers assembled early at 328 East Houston street, where speeches were made by Secretary Morris Freund and others.

The strikers are members of local assemblies Nos. 436 and 1058 Knights of Labor. It is not likely the contractors will make any determined opposition, but as some of them are not pressed with orders it may require a week to close up the strike.

The knee pants makers' union is the next organization booked to strike, but not until they hear from the contractors on the question of signing their agreement.

Cloakmakers' Union No. 1 has presented a new piecework price, increasing rates for cloak making from 25 to 50 per cent over present figures. There are 10,000 workers interested who, unless concessions are made, will go on a general strike.

ZEIGLER DEFEATS ABBOTT.

Declared the Winner at the End of the Twentieth Round.

BALTIMORE, Aug. 20.—The international bout between Stanton Abbott, champion lightweight of England, and Owen Zeigler of Philadelphia, who fought Jack McAuliffe to a draw, occurred last night at the Eureka Athletic club in the presence of 1,500 spectators.

Abbott and Zeigler entered the ring at 10 o'clock. The Englishman was accorded a generous reception as he stepped inside the ropes. He weighed 132 while Zeigler weighed 137 1-2. Abbott looked a trifle thin and overtrained, while Zeigler's muscles stood out in bunches and he looked to be in the best of condition. Jake Kilrain and Frank Farley were in the Englishman's corner and Turkey Smith and D. L. Bailey assisted Zeigler. George Maatz of Baltimore acted as referee.

Twenty rounds were fought when the referee declared Zeigler the winner. He will be matched against young Griffo.

Beneficial and Disastrous.

OTTUMWA, Ia., Aug. 20.—The rain yesterday, while of great benefit to corn, was disastrous in many places because of the accompanying electricity. Mrs. Smith of Osceola was rendered senseless by lightning and a number of cows and horses were killed. Fences were fired and trees and small buildings struck. At Chariton Colonel Bartholomew was prostrated and his house set on fire. Curtis, a wealthy farmer, lost his barn and its contents, including valuable horses.

Restraining Order Denied.

ENGLISH, Ind., Aug. 20.—Last Saturday afternoon there was another chapter in the noted county seat removal case. Before Judge Zenor of Corydon, the Leavenworth people asked for an injunction restraining the commissioners of this county from letting the contract for the erection of county buildings at English, and the motion was denied. The contract will be let by the commissioners on Sept. 6.

Railway Mortgage Filed.

ROCKPORT, Ind., Aug. 20.—A mortgage, given by the Chicago, Indianapolis and Chattanooga Southern Railway company to the Union Trust company of Indianapolis for \$1,600,000, was filed for record in the recorder's office of this county yesterday morning. The instrument states that it is for the purpose of discharging indebtedness and to complete that part of the road lying between Rockport and Mitchell.

FORT SMITH, Ark., Aug. 20.—An old negro convicted in the United States court Monday of stealing horses in the Creek nation claims to have been a slave of "Old Hickory." He tells remarkable stories of his life, saying his mother was a slave belonging to the Creeks, but was captured by General Jackson in the battle at Horseshoe, Ala., and he was born at Horseshoe 60 years ago and was raised there.

GAUNT AND SINISTER

Stands the Remains of the Gumry Hotel.

THE FLAMES START OUT AFRESH.

The Disaster the Worst That Has Occurred in Denver's History—List of Dead and Missing Now Numbers Twenty-Five. Only Seven Bodies Have Been Recovered. The Night Engineer to Blame.

DENVER, Aug. 20.—A portion of Gumry hotel, the scene of last night's frightful disaster, is still standing, gaunt and sinister, constantly threatening to crash down upon those delving in the ruins at any moment. The search for victims has been carried on with the utmost energy constantly with the aid of 20 arc lights. Flames broke out afresh in the wreckage last night and the fire engines are again pouring on water, still further impeding the work of rescue.

The list of dead and missing now numbers 25, making the disaster the worst that ever occurred in the city. Up to 8:30 last night only seven bodies had been recovered, being those of Manager Grenier and his wife, clasped in each others' arms; Gore Burt, a Rock Island railroad conductor; Mrs. George R. Wolfe and daughter, Fred Hubbard and Will Richards, the elevator operator of the hotel.

Among the missing is now included Elmer Pierce, the night engineer, who is said to have re-entered the hotel just before the explosion occurred. It is to this man's carelessness that the disaster is attributed.

The bodies of Peter Gumry and General Adams are still in the ruins. Judge James Glynn, who was at first supposed to be in his room at the hotel, turns out to be at Holyoke, Colo., where he was spending Sunday with friends.

A vast throng surround the building on all sides, pushing forward as far as the fire ropes will allow. The police are constantly guarding against anyone slipping through the lines on account of the great danger that the front of the building may fall.

The scenes surrounding the death of James Murphy, contractor, was heart-rending. The firemen engaged at the rear of the building heard the agonizing cries from the man that he was burning and asking them to continue to place the water. After a few hours of heroic work the firemen reached him. His two lower limbs were pinioned between two joists. After the most herculean efforts with dense smoke blinding them, the firemen released Murphy's left leg. At this moment a shot of flame compelled them to withdraw. Murphy then offered his rescuers \$1,000 to get him out, and piteously demanded them to chop his leg off. A second later the west wall collapsed and covered Murphy with tons of ruins.

M. S. Letson, a dairyman of this city, was in the ruins 10 hours before he was rescued. His injuries are a crushed arm, several contusions and the shock to his nerves.

The total loss caused by the explosion and fire is about \$75,000. The Gumry hotel was worth about \$25,000 and had \$8,000 worth of furniture. It is a total wreck, but was insured for \$25,000.

The McMann block, which stands next to the Gumry, was also heavily damaged. It is owned by Colonel E. A. Bishop and was built in 1890. It is a 4-story pressed brick, and is occupied throughout by A. Lilliblade Furniture company. The whole rear end of this block was ruined. The loss on the building is about \$25,000, as the building will have to be torn down. This block is insured for \$15,000. The stock of A. Lilliblade, valued at \$30,000, is only partly lost.

WET OR DRY.

Methodist Ministers of Atlanta Securing Signatures For an Election.

ATLANTA, Aug. 20.—The indications are that Atlanta is to be precipitated into the midst of another heated prohibition contest and that, too, during the progress of the exposition.

The Methodist ministers of the city at their regular weekly meeting, took the matter up and decided to begin at once the work of securing the signatures of the necessary one-tenth of the registered voters to a petition calling for an election of the question of "wet" or "dry" for Nov. 1. This action insures the calling of the election.

Receivers Appointed.

LIMA, O., Aug. 20.—It has just leaked out that last Friday N. E. Mathews and J. R. McGrew were appointed receivers of the Ohio Southern railroad, supplanting George W. Saal. For some time there has been friction between Saal and the first mortgage bondholders, and it is supposed that Calvin S. Brice has espoused the cause of the latter.

Nothing Official Received.

WASHINGTON, Aug. 20.—No reports have been received at either the state or navy departments concerning the troubles between Bolivia and Peru. At present the United States has no warships in the waters of either of these countries, but in case of hostilities both the Alert, at Panama, and the Ranger, at Guayaquil, are available to look after American interests.

Strike Settled.

WEST SUPERIOR, Wis., Aug. 20.—The coal miners' strike was settled yesterday, and the men are fast returning to work. About 700 men were out, but many of them went to work in the harvest fields and to the mines on the range.

THAT notoriously bad Common Council of Chicago is composed of fifty Republicans and eighteen Democrats.

THE New York World says: "The new revenue law is yielding nearly \$1,000,000 a day. This is all that any Congress ought to spend."

WIREDRAWERS in the Cleveland rolling mills have received an advance in wages. McKinley's own State, too. But this is getting to be a common every-day affair over there as well as elsewhere.

THE New York World says that shipments of 1,400 tons of fine pig iron from Ohio furnaces to England seem a little like "sending coals to Newcastle." It must seem rather hard on the "pauper labor of England." And a very neat satire it makes on the "protective" duty of forty cents a ton on iron ore extorted from the House by Gorman and the other railroad and mine agents in the Senate.

THINGS have changed down in Georgia. Senator Gorman, who was in Washington Saturday expressed the opinion that the attitude of Georgia on the financial question was extremely uncertain. "The situation in the State," he said, "is greatly mixed. I do not think that any one can say at this time what the outcome will be. Six months ago Georgia was largely in favor of the free coinage of silver. Indeed, I think probably the State is still for silver, but not as strongly as before. Secretary Smith's speeches, which were very able, have had a great influence in the State, and the administration has greatly increased in strength; so much so that I think there is a very fair prospect of the administration forces finally getting into control."

The free silver craze seems to be dying out.

A DEMOCRATIC YEAR.

"Here we are in midsummer and business is booming as if it were the height of the season of trade," says the Boston Post. "There is not a trace of the traditional midsummer dullness. Activity in established industries is phenomenal; new enterprises are extending on every hand; general trade is flourishing; people are not docking their vacations this year, but seem to have enough money to go pleasuring and to buy things and to extend their business at the same time."

"What is the meaning of it all? Why, nothing except that these are Democratic times. The Democratic ideas which the people put on top in 1892 have at last got in their work and produced something to show for it. What these ideas have produced through their practical operation is general prosperity, and the people are beginning to see it."

"Men are getting better wages; factories are running; production can hardly keep pace with the demand; prices are low for the consumer but yield a satisfactory profit for the producers; invested capital is contented with its returns."

"All this has come about under the operation of the Democratic policy, imperfectly as that policy has been carried out at some points. It is a Democratic revival in which the country rejoices to-day. And it means that the people will keep the Democracy on top because they like it."

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

"OLD GOLD MILLS EXHIBIT."

Some Special Premiums Offered in the Floral Hall at the Fair This Week.

The Blue Ribbon fair this week promises to eclipse all previous ones in attractiveness; especially will this be true of the floral hall. Realizing the importance of the event, we will with our characteristic energy display the unexcelled products of our mill. To induce our many friends and patrons to unite with us in showing to the public what can be done with the superior goods which we manufacture, we have arranged to offer the following special premiums:

For the best loaf cake made of Old Gold Patent flour, a barrel (five pounds) of baking powder, presented by Thomas J. Chenoweth & Co.

For the best layer cake made of Old Gold Patent flour, one package flavoring extracts, manufactured and presented by John C. Pecor.

For the best loaf salt rising bread made of Old Gold Patent flour, a lamp, presented by M. C. Russell & Son.

For the best loaf of yeast bread made of Old Gold Patent flour, a barrel (five pounds) home-made yeast, made and presented by Mrs. John Moore.

For the best baking powder biscuits made of Old Gold Patent flour, a five-pound can of Price baking powder, presented by Price Baking Powder Company, Chicago, Ill.

For the best beaten biscuit made of Old Gold Patent flour, a copy of Kentucky Receipt Book, presented by the ladies of the Methodist Church, South.

For the best collection of edibles made of Graham flour, a twenty-four-pound sack Graham flour.

For the best collection of edibles made of Pearl meal, a fifty-pound sack of Pearl meal.

All articles competing for these premiums must be sent to the Old Gold Mills exhibit in the floral hall, care Mr. J. B. Noyes, before Friday at 12 o'clock. Very respectfully,
OLD GOLD MILLS.

Rev. Sam W. Small to Lecture.

Rev. Sam W. Small, the popular Southern evangelist, orator and editor, will lecture at the opera house to-morrow night and Thursday night. See notice elsewhere for further information. In addition to the lecture Thursday night there will be music by the Apollo Quartette, stereopticon views by Dr. N. W. Tracy, the temperance evangelist. Here are some pen pictures of Mr. Small:

New Orleans Times Democrat: "There are few orations extant comparable with it in eloquence, pathos and soul-stirring details."

Atlanta Capitol: "He will be a living power for good in any community to which he may go."

New York Herald: "Mr. Small is one of the most magnetic speakers on the platform of the day, and charms the people with that fervid style of Southern oratory, of which he is a natural master."

Philadelphia Times: "Mr. Small's lecture was superb in all its parts."

Washington Post: "There are not a half dozen men in the country who are equal with him in popular power as a public speaker."

Norfolk Virginian: "Mr. Small is wise, witty and entertaining in the best degrees."

Cincinnati Commercial-Gazette: "Mr. Small is a man whose culture, knowledge and experience entitle his words to the deepest consideration."

IT WILL CHARM ANY WOMAN

To see our gathering of choice things for summer wear. It will surprise the thriftiest among them how absurdly small many of the prices are.

White Parasols. French Challies.

You have two months to use them still and you will be equipped for next summer at one-half the price it will cost you then.

Silkene, English frame, white enameled stick, very chic, 98 cents.

Unruffled Silk, close weave, handsome quality, white enameled stick, \$1.25.

Finest grade China Silk, ruffled edge, close ribbed, beautifully enameled stick, \$1.50.

Not because they are shop worn or bad design, but because we don't want the season to go before they do. Nothing prettier for dainty house gowns this winter, attractive tea gowns or well-wearing school frocks, and the price is purse-pleasing at 25 cents. These goods are genuine all wool French Challies, the kind that sell for 50 and 75 cents. They are certainly well worth your attention if you are a wise woman. Are you?

Placket Fastener.

Have you ever seen a yawning placket? Is it pretty? is it neat? Avoid such exhibitions of carelessness by investing 10 cents in a fastener. It can be adjusted in five minutes.

Silks.

Did you avail of our sale last week? It continues through this, and now is the time to select the waist for that odd skirt you want to wear this winter.

The above tell the story of a storeful. Big values, little prices. We lose, you gain. Bargains are economy; economy is wealth.

D. HUNT & SON.

Handsome French China!

Known the world over as the richest and choicest of ceramic productions. Thin, light, white—absolutely free from crazing. It complements the things on the table, pays its silent tribute to the good taste of the hostess.

We have just received a large invoice of the newest and prettiest designs, direct from the Limoges factory. We should be pleased to have you call and examine this elegant ware. Walk in and look around.

HARD HITTING.

Was a Feature of Monday's Game.
Maysville Won—Another Game
This Afternoon.

The game of ball yesterday afternoon was characterized by hard hitting on both sides, but the Maysvilles got the best of it, decidedly, defeating the Huntington by a score of 9 to 3.

Rieman was in the box for Maysville and Trueheart Taylor for the visitors, and each was touched up for an even dozen hits. George kept the hits well scattered. In no inning did the Huntington succeed in getting more than two. This with good field work by the locals kept the visitors from reaching scoring territory.

Of Maysville's twelve hits, four were two-baggers and one was for three bases. The second and fourth innings were the disastrous ones for Huntington. In the second, McGann opened with a single, stole second; Rieman got a base on balls, Hilleary followed with a single, then came Hall with a two-bagger; Wadsworth and Sutherland struck out; Van Winkle got first on balls, and then Cox followed with a two-bagger. This netted the locals four runs, and gave them a lead that the visitors never reached.

Tenley started in to catch, but was suffering so much from his back that he was hurt a week or so ago that he soon retired, and Captain McGann took his place, Hall covering second.

This was the second game Captain McGann has caught this season, but he soon demonstrated that as a receiver he is the equal of any in the business. And he throws down to the bases in great style. Captain McGann is unquestionably one of the best all-round players in the business. He knows all the points, is cool headed, and gets around the bases as fast as any of them. He scored four of the nine runs yesterday.

Most of the Maysvilles played an errorless game. The visitors didn't give their pitcher the support he deserved. Following is the score:

Earned runs, Maysville 3. Two-base hits, Cox, G. Rieman 2, P. Rieman. Three-base hits, Hellman, Tanner. Bases stolen, McGann 2, Hilleary, Frank. Bases on balls, Taylor 2, Rieman 1. Bases on hit by pitched ball, by Taylor 1. Struck out, by Rieman 5, Taylor 10. Passed balls, Tenley 1, O'Brien 1. Time of game 2 hours. Umpire, O'Donnell.

The terms play again this afternoon. Smith will pitch for the visitors and Wellner or Hilleary for the locals.

"Kid" Keenan, an ex-Maysvillian, pitched for the Fayetteville, O., team Monday against the Batavians, in the closing game for the district championship. The Fayettevilles won, 16 to 2.

A special to the Cincinnati Post says the Knoxville have accepted the challenge of the Maysvilles for a series of three games to be played at Cincinnati for \$1,000. The Maysvilles have received no word to that effect. On the contrary the Knoxville are anxious for the Maysvilles to come down there and play four games during a big reunion, the two teams then to go to Chattanooga for a series of games on Sept. 20th, during the opening of the Chickamauga Park.

THE funeral of the infant daughter of Mr. and Mrs. John Gillespie occurred yesterday afternoon at the home of the parents in Sixth ward. The little one died Sunday of cholera infantum, aged four months.

MISS FLORENCE WILSON, Miss Mary Wilson, Miss Mattie Wright, Miss Anna Bauer, Miss Lucy Wilson, Miss Lottie Gunn, Mr. James Childs, Mr. Conrad Traxel and Mr. Horace C. Wilson, representing the Christian Endeavor Society of the First Presbyterian Church, spent Sunday with the Endeavor Society of Ebenezer Church, Cottageville, and were not out in that neighborhood for the purpose of organizing a young people's society as was stated in yesterday's Ledger.

A SPECIAL from Owensboro Saturday stated that Rev. Fred D. Hale, the well-known Baptist preacher, would wed Mrs. Minnie Edmons to-day, and that they would leave immediately for Europe. Dr. Hale's wife died about a year ago, and when it was announced a few days since that he would marry again soon a sensation was created in Owensboro. He has been devoted to Mrs. Edmons for three months, and the announcement was no surprise to the friends of either.

THE FAIR BEGINS TO-MORROW.

List of the Stables of Horses Now on the Ground—The Music and Floral Hall—To-morrow's Program.

Everything is in shape for the beginning of the Blue Ribbon fair and races. To-morrow morning the gates will be thrown open. The weather promises to be delightful. A nice rain to-day would lay the dust, and help make the week all the more enjoyable.

The stables of A. B. Hutchings, Doug. Thomas, W. R. Brasfield, Will Young, J. H. Thayer, C. C. Van Metre, D. B. Mitchell, Jos. Lair, D. G. Taylor, John Hunter, Martin Bros. and Jos. Walton have already arrived, and are now on the grounds. Prospects are good for some high class racing.

The exhibition in the arena to-morrow will embrace draft horses, saddle mares, harness stallions and sweepstakes. The 2:33 trot is on the program in the speed ring. There are sixteen entries for this race and it promises to be warmly contested.

The band has taken special pains in preparing some choice selections, and this will be an attractive and enjoyable feature each day. And the floral hall will be more attractive than ever before. To-morrow will be Children's Day at the hall.

River News.

The M. P. Wells broke a shaft near Ripley Saturday and lost her wheel. The Reliance has taken her place in the Augusta-Maysville trade. The Silver Wave has extended her trips through to Portsmouth, leaving here daily except Sunday.

The Big Sandy and Kanawha rivers were rising yesterday. A good stage is looked for in the latter stream.

It Was Not Tolle.

A special from Manchester says that the man who was drowned opposite there last Saturday was Gus Wakefield. So the statement in the Public Ledger yesterday that the unfortunate was Stephen Tolle, an ex-Maysvillian, was not true. It's not always so, if you see it in the Ledger.

An Earthquake.

A slight shock of earthquake was felt in this city yesterday at 12:30 o'clock. The shock was noticed by a great many people in the Fifth ward and the members of one family were so frightened they all ran out of the house. The shock was accompanied by a rumbling noise.

A VOTING BOOTH.

Which a Wealthy Bachelor Has Provided at the Floral Hall—A Novel Attraction.

A novel attraction among the many to be seen at the floral hall during the entire week of the fair will be a voting booth, built by a wealthy bachelor of our city, where votes can be cast for the handsomest lady, and the one receiving the greatest number of votes will receive a life-size photograph, donated by one of our most popular photographers.

A bulletin board at the voting place will announce the vote each day, and on Saturday afternoon the total vote will be indicated by the figures on the board.

ALL our 10 cent lawns, dimities and ducks reduced to 7 1/2 cents.

LOUISVILLE TOBACCO MARKET.

Prices the Past Week Were Satisfactory—Improvement in Some Grades.

Glover & Durrett, of the Louisville Tobacco Warehouse, furnishes the following:

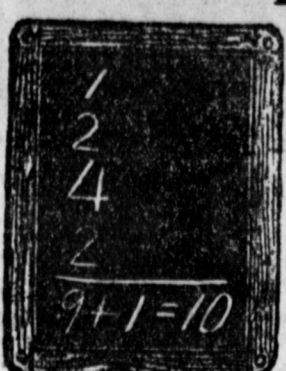

Sales on our market for the week just closed amount to 3222 hds, with receipts for the same period 2858 hds. Sales on our market since January 1st amount to 127,727 hds. Sales of the crop of 1894 on our market to this date amount to 127,563 hds.

There has been more good and color burley sold on our market this week than for some weeks past, prices for which have been satisfactory. There has also been a little improvement in the prices for medium red leaf. Other grades remain about the same.

The following quotations fairly represent our market for burley tobacco, (1894) crop:

Trash (dark) or damaged tobacco..... \$ 1 50 @ 2 75
Common color trash..... 2 75 @ 3 25
Medium to good color trash..... 3 50 @ 5 00
Common lugs, not color..... 2 50 @ 3 50
Common color lugs..... 4 00 @ 5 50
Medium to good color lugs..... 5 50 @ 8 00
Common to medium leaf..... 5 00 @ 7 50
Medium to good leaf..... 7 50 @ 12 00
Good to fine leaf..... 12 00 @ 15 00
Select wraperry leaf..... 15 00 @ 28 00

So Simple.

Nine times out of ten whenever we are out of sorts our troubles can be removed by that reliable old medicine,

Brown's Iron Bitters,

which for more than 20 years has been curing many people of Dyspepsia, Biliousness, Malaria, Impure Blood, Neuralgia, Headache, Liver and Kidney troubles. It's the peculiar combination of iron, the great strength-giver, with selected vegetable remedies of true value that makes Brown's Iron Bitters so good for strengthening and purifying the system. It is specially good for women and children—it makes them strong and rosy.

Brown's Iron Bitters is pleasant to take, and it will not stain the teeth nor cause constipation. See the crossed red lines on the wrapper. Our book, "How to Live a Hundred Years," tells all about it; free for 3c. stamp.

EAST LIMESTONE.

Miss Mary Daulton, of Maysville, was visiting relatives here Saturday.

Mrs. Belle Hamilton, of Logans Gap, was the guest of her sister, Mrs. John Byron, several days the past week.

Mrs. Sara Williams and Mrs. Maggie Williams returned home Sunday after a pleasant visit with friends at Rectorville.

SPRINGDALE.

Our school began Monday, August 12th, with fair attendance.

Elijah Berry, of Mayslick, is visiting his father, Xerxes Berry, in "Canada."

Miss Maud McKee is visiting the family of T. P. Degman where she once made her home.

Rev. Wm. Rice preached at the residence of Hart Martin over in "Canada" on Saturday night.

Sunday, August 18th, was the hottest day we have had for many years, thermometers in some places going as high as 106° in the shade, which is pretty warm for the country.

There will be a Sunday school picnic at the East Fork Church in Lewis County on Saturday, August 24th. Let everybody go and see a regular old fashioned basket dinner out in the beautiful oak grove. None need come away hungry. We know whereof we speak; "we have been thar."

MAYSICK.

The drouth is getting alarming.

A great many are out of water and the supply carts are running daily.

We have a public well here but it is always out of fix. No pump in it that is of any use.

The crops are drying up and if we don't get rain very soon we will have nothing but a half crop.

The Mayslick and Lee's Creek base ball clubs had a close game here one day last week. Our boys got away with them.

Miss Ann Berry who has been here with us for so long left last Wednesday. She will be greatly missed by her many friends.

For the days during last week the mercury stood at from 95° to 98° and on Sunday at 101° in the shade, and the dust a foot thick.

The boys have been barbecuing the chickens lately and have them for a midnight luncheon and wash them down with cool refreshing beer.

Some three miles south of this place last Friday afternoon there was a severe hail storm which ruined the corn and tobacco. C. W. Williams, Esq., and one of the Robinsons were the principal sufferers.

City Taxes.

The receipts for city taxes are now in my hands for collection. On November 1st a penalty of 10 per cent. will be added.

BIG PROFITS Small Investments

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

\$10.00 Systematic Plan of Speculation

FOR EACH DOLLAR INVESTED can be made by our.....
operating by us. All successful speculators operate on a regular system. It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand. It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading. Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time. WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our manual explains margin trading fully. Highest references in regard to our standing and success. For further information address
